

Busy vs Productive

Busy People:

1

Jump from task to task without clear priorities, often feeling overwhelmed.

2

Fill their schedule with meetings, emails, and low-value tasks that seem important.

3

Measure success by how much they do, not by the results they achieve.

Productive People:

1

Focus on high-impact tasks that align with long-term goals.

2

Plan their day strategically, minimizing unnecessary meetings and distractions

3

Measure success by outcomes, ensuring effort leads to meaningful progress
